

AKSHAY GUPTA

Bangalore, India
mail@kitallis.in — GitHub: kitallis — LinkedIn: kitallis

PROFESSIONAL SUMMARY

Product & systems engineer who likes to build small teams and ship human-focused software. Interested in distributed systems, data pipelines, clojure, functional programming and products.

PROFESSIONAL EXPERIENCE

Co-Founder & CTO — Tramline — Aug 2022–Present

Co-founded and built an open-source product in the mobile release-engineering space. Led engineering and product development. Built and shipped the MVP including DevOps, documentation, monolith & auxiliary services. Wearing many hats: product, gtm, engineering, sales etc.

Founding Member — nilenso — Jun 2013–Jul 2022

Co-founded an employee-owned software co-operative. Full-stack work from software development to operations, mentoring, and recruitment. Delivered well-crafted software products to a variety of clients.

Software Engineer — C42 Engineering — Nov 2011–May 2013

Joined this small boutique Ruby consultancy right out of college. C42 Engineering was a boutique technology consultancy that specialized in delivering high-quality technology solutions to some of the fastest-growing startups both in India and in the Valley.

Contract Developer — Google / GNOME — Apr 2011–Aug 2011

Developed a filesystem journaling interface for Zeitgeist in GNOME Shell. Bunch of tiny qol tickets and patches over the years.

KEY PROJECTS

Tramline

- Part of a very small team of two engineers building a simple, collaborative way for teams to release their mobile applications
- Did everything from customer research, product development, UX design to marketing, sales, writing blog posts, docs and newsletters (basically, everything required to run a startup)
- The main service is written using Ruby on Rails, Sidekiq and PostgreSQL. All the code for Tramline is open-source and available on GitHub to self-host

Exotel

Exotel is a leading cloud-based VoIP and SMS provider in India (like Twilio).

- Led the SMS team and redesigned the SMS delivery system
- Migrated entire messaging Java codebase to Java 11
- Rewrote all synchronous customer-facing messaging APIs to be eventually-consistent and non-blocking

Simple (Resole To Save Lives)

Lead engineer on a large scale, open-source hypertension management system serving over 1.2 million patients in India, Bangladesh, and Ethiopia.

- Collaborated with IHCI and research team
- Shipped features like call masking, regional syncing, and optimized reporting
- Improved traceability and observability

GoJek (GoTo)

GoTo is an on-demand multi-service platform and digital payment technology group based in Jakarta.

- Led the Transport (ride-hailing) team
- Built point-of-interest subsystem with auto-POI detection via clustering algorithms
- Helped build a streaming framework in Clojure
- Built a streaming payments service to talk to GoPay
- Mentored multiple engineering teams in Clojure and database infrastructure

Staples Sparx

R&D arm at Staples, personalizing e-commerce using machine learning and data science.

- Architected high-availability experimentation platform enabling multi-variate testing using Clojure and PostgreSQL
- Focused on maintaining low latency while ensuring system reliability
- As part of the project, built an in-house Postgres high-availability system with Zookeeper using repmgr

SPEAKING ENGAGEMENTS

- Reducing Accretion in Monoliths — ClojureD Berlin 2019
- A Postgres Orchestra — PGConf India 2017
- The Tao of Ruby — RubyConf India 2013
- Reducing Accretion in Monoliths — ClojureD Berlin 2019
- ReactJS Talk — Meta Refresh 2015
- Frequent Speaker — BRUG (Bangalore Ruby Users Group) since 2014

COMMUNITY INVOLVEMENT

- Organized InClojure, Asia's first Clojure/ClojureScript conference three years in a row (2018 - 2020)
- Organized ClojureBridge Bangalore, teaching Clojure programming to women, ran it for two years (2019 - 2020)
- Volunterred as a teacher at RailsGirls Bangalore (2014)

TECHNOLOGIES

Clojure, Ruby, Ruby on Rails, Go, Python, PostgreSQL, MySQL, Kafka, RabbitMQ, Redis, Bash, Javascript, and many others

EDUCATION

Bachelor of Computer Applications, Guru Gobind Singh Indraprastha University (2008 - 2011)
